

# TOEFL Practice Online (Vol. 15 and 16)

The TOEFL® iBT Complete Practice Test uses previously administered test questions from the makers of TOEFL® iBT. It measures all four communication skills — reading, listening, writing and speaking — and simulates the real TOEFL® iBT testing experience. (Rp 450.000,-)

- **Reading and Listening** - Feedback includes the number of right and wrong answers, a scaled-score range (0 to 30) and analysis that helps you understand your performance level.
- **Speaking** - You speak into a microphone to record your responses, which are scored by the *SpeechRater*™ program, an automated scoring system. Scores and performance feedback are posted online within minutes. The *SpeechRater* program determines your ability with pronunciation, fluency, vocabulary and grammar. Your total score is converted to a score on a scale from 0-30.
- **Writing** - Feedback includes a rating (0 to 5) on each of 2 writing tasks, a scaled score (0 to 30) and feedback analysis.

## Content:

**The Reading section has 3 academic reading passages.**

- Questions measure your ability to understand and analyze the meaning of the passages.
- New features include a glossary and a review option.

**The Listening section has 2 conversations and 4 lectures.**

- Questions measure your ability to understand what you've heard.
- You may take notes while you listen.
- Some lectures include classroom dialogue.

**The Speaking section has 6 tasks.**

- The 2 independent tasks require you to speak on familiar topics.
- The 4 integrated tasks require you to use more than 1 skill when you answer. For example, you will read a passage and listen to a brief lecture or conversation and then speak your response.

**The Writing section has 2 tasks.**

- For the first task, you will read about an academic topic and then listen to a lecture on the same topic. You may take notes and use them to write your response, which is based on what you read and listened to.
- For the second task, you will write a response based on your own knowledge and experience.

## Systems Requirements:

- Microsoft Windows operating system (system 98, NT, 2000, XP or Vista)
- Microsoft Internet Explorer 5.01 or later, AOL 6.0 or later and other browsers supported
- All products that include speaking require Microsoft Internet Explorer 6.0 and microphone
